Public Notice #15-063-TV-SM

Date: December 4, 2015

### **NOTICE OF A DRAFT/PROPOSED SIGNIFICANT MODIFICATION TO AN EXISTING PART 70 AIR QUALITY (TITLE V OPERATING) PERMIT**

**GE (GREENVILLE) GAS TURBINES, LLC  
300 GARLINGTON ROAD  
GREENVILLE, SOUTH CAROLINA  
(GREENVILLE COUNTY/UPSTATE, GREENVILLE EQC OFFICE)  
AIR PERMIT NO. TV-1200-0094**

GE (Greenville) Gas Turbines LLC has applied to the SC DHEC for a significant modification to their existing Part 70 Air Quality (Title V Operating) Permit for its existing site. A Draft Revised Title V Operating Permit and Statement of Basis have been written by the BAQ incorporating and outlining the proposed project and applicable regulations. The draft revised permit includes the following:

- An Administrative Amendment to remove the Lowest Achievable Emissions Rate (LAER) condition (Condition 5.D3) from the existing permit and remove the reference to SC Regulation 61-62.5, Standard 5.1 in Condition 5.D.1 as this is a state-only condition. The facility will keep the federally enforceable facility-wide limit of less than 100 tons per year (TPY) of Volatile Organic Compounds (VOC).
- Minor Modifications to: add construction permit number 1200-0094-ER; add insignificant activities; and change the description of existing insignificant activities.
- A Significant Modification to request an alternative averaging period for use with Method 9 in order to address compliance with SC Regulation 61-62.5, Standard 4 during limited and specified periods of time when the facility is in designated test modes. The test periods will be limited to a maximum of thirty (30) hours per calendar year.

If approved, the draft revised Title V Operating Permit will enable the facility to continue to operate as a major source in accordance with SC DHEC Regulation 61-62.70 "Title V Operating Permit Program." All emissions limitations and conditions contained in the draft revised permit have been written to ensure that the facility operates within the requirements of the Title V Operating Permit Program for the State of South Carolina. The draft revised permit has not yet been approved and is open to comment from the public, affected states, and the United States Environmental Protection Agency (EPA).

Interested persons may review the materials drafted and maintained by DHEC for this facility and submit written comments on the draft permit by the close of business, which is 5:00 p.m., on January 2, 2016, to David Meekins, at the above DHEC address, or by e-mail at meekindr@dhec.sc.gov. All comments received by 5:00 p.m., on January 2, 2016, will be considered when making a decision to approve, disapprove, or modify the draft permit. Where there is a significant amount of public interest, DHEC may hold a public hearing to receive additional comments. Public hearing requests can also be made in writing to David Meekins. If a public hearing is requested and scheduled, notice will be given in this newspaper thirty (30) days in advance. If you have questions concerning the draft permit please contact Utpal Patel at the phone number listed above. A final review request may be filed after the permit decisions have been made. Information regarding final review procedures is available from DHEC's legal office at the above address or by calling (803) 898-3350. Information relative to the draft permit will be made available for review through January 2, 2016, at the DHEC Columbia Office listed above and at the following location:

SC DHEC, Upstate – Greenville EQC Office, 200 University Ridge, Greenville, SC 29601 at (864) 372-3273

Information on permit decisions and hearing procedures is available by contacting DHEC at either address listed above. Copies of a draft permit or other related documents may be requested in writing at a \$.25 per page charge. Please bring this notice to the attention of persons you know will be interested in this matter.

This public notice, along with the draft permit and statement of basis, may be viewed through January 2, 2016, on DHEC's website at:
